

Laboratory and Technical Support Officer - Veterinary Anatomy

This is a **full-time, continuing position** (\$74,530- \$80,724) based at our World Class Veterinary facilities at the **Townsville campus**

What you can accomplish in the role

Working autonomously with broad direction from the Manager, Facilities and Technical Support and academic staff, you will provide technical support and expertise, including the coordination of teaching resources, for the veterinary and biomedical sciences anatomy programs. Maintaining the veterinary anatomy teaching laboratory, including anatomical specimens, you will prepare animal bodies and tissues for teaching, prepare, organise and set up for practical classes and ensure a clean safe workplace.

What you will bring to the role

As someone with demonstrated experience as a Laboratory Technician in an appropriate field you will have a proven ability in animal and tissue preservation and maintenance including specimen preparation and pro-section techniques. Your comprehensive understanding of WHS legislation and how it applies in a laboratory environment will see you succeed in this interesting and varied role.
